We are seeking a highly execution-focused candidate to drive pipeline growth and deliver marketing-generated opportunities across defence sectors in the UK, Ireland, Spain, Germany, and France. You'll be working in partnership with USA based teams, so flexibility is required within the role.

This is a hands-on role responsible for planning, executing, and optimising integrated marketing programs that generate qualified leads, accelerate sales cycles, and contribute directly to pipeline and revenue. The role requires strong alignment with sales and a deep understanding of European public sector and defence buying environments, procurement cycles, and regulatory considerations.

## TO MAKE A REAL DIFFERENCE IN THESE AREAS

### DEMAND STRATEGY & EXECUTION

- Develop and execute integrated demand generation campaigns aligned to defence sales priorities across EMEA
- Build campaign plans including target accounts, personas (e.g., CIO, CISO, IT Director, Programme Lead, Procurement), messaging, channels, and KPIs
- Align marketing activities to public sector budget cycles and funding timelines across key European markets
- Manage end-to-end campaign execution from planning through optimisation.

### PIPELINE & MGO OWNERSHIP

- Own and deliver against pipeline and marketing-generated opportunity (MGO) targets across defence accounts
- Partner closely with sales leadership to define opportunity criteria and improve lead-to-opportunity conversion
- Conduct regular pipeline reviews and adjust campaigns to address funnel gaps and performance

### ACCOUNT-BASED MARKETING (ABM)

- Support named account and priority defence account strategies in partnership with sales
- Develop targeted, personalised campaigns for high-value defence organisations and programmes
- Support deal acceleration marketing for strategic opportunities

### EVENTS & FIELD MARKETING

- Plan and execute defence-focused events including industry conferences, roundtables, executive briefings, and webinars
- Develop pre- and post-event engagement strategies to drive attendance and convert interest into pipeline
- Track event performance and contribution to pipeline

- Position HP as a trusted partner in secure, mission-critical environments (e.g., cybersecurity, zero trust, hybrid work, AI, device lifecycle management)
